“Hope for Today ... Building for Tomorrow”

June Smith Bryant
Interim Executive Director

St. Paul's Community Development Corporation (SPCDC) North American Power (NAP): A New Thing for 2012

St. Paul's Community Development Corporation (SPCDC) recently joined North American Power (NAP) a third party electric energy supplier that caters to the non-profit world in these economic challenging times. As part of our new fund raising venture we are asking you to consider switching your energy supplier. To continue on the road of sustainability, if you join NAP on SPCDC's website -- www.stpaulscdcnj.org the agency will receive a contribution.

During the 1st 30 days

- SPCDC will receive \$50 for the first 3 people who sign up
- Then \$250 for every ten people thereafter during the 1st 30 days

After 30 days

- The agency will receive \$5 for each individual who sign up after the 30 days

If you decide to switch to NAP you will save on your electric bill for the 1st three months and afterwards you will continue to receive your electric energy at a rate \$.08 per kilowatt or the best available price. You also have the option to become a representative for the company at no additional cost and NAP will set you up with your own website. This could possibly be a supplemental source of income for you. You can invite friends and family to join through you as a representative or via the agency's website.
